Pulled the Princess' Tooth.

Eugene Field, in Chicago News.].

Dr. Wm. C. Boswell, a young and skillful dentiat, wise, coming from Bal-timore, located in London last spring, had the honor of pulling a tooth from the royal mouth of the fair Princess Maud of Wales last week. It was a wisdom tooth and hated to let go. The Princess screamed like a locomotive. Boswell got £10 (\$50) for the jcb, and of course the advertisement is a price less one. As for the royal tooth, the doctor has mounted it and enshrined it in a velvet case.

The plans on which this Home Enterprise operates and the principles which the charter protects renders it the best method of Fire Insurance under the sun. Every business man knows that Capital Stock means Speculation. "The Valley Home" has no capital stock, consequently no divide; neither does it call for Annual Premiums, nor have any legal affiliations to incorporated capital stock, which as a rule, either becomes immensely rich at the expense of covery man who takes insurance subject to it, or else ason dissolves. Our system simply means pay a small record fee, and for the property burned. All you pay by assessment is appropriated to pay the less of your neighbor: if your property burned. All you pay by assessment is appropriated to pay the less of your neighbor: if your neighbor is assessed to pay you. This is not only insurance, but the practical exercise of right. If you will give this business transaction five minutes solid thought you will see that this is The Corrany in which to place your insurance. We wish to employ a number of good business men as Agents and Solidions, and can offer special inducements to to the right man. For full particulars, terms and territory, call on or stdress.
